The Pixel Depot - Europe's Ultimate LED Showroom

Why visit the Pixel Depot?

Screen expert displayLED has launched The Pixel Depot, a state of the art showroom featuring the latest in innovative LED displays from more than a dozen leading manufacturers.

The Pixel Depot is an industry resource designed to be Europe's most comprehensive collection of LED video displays, all under one roof and sourced by our experts.

Offering solutions for a wide range of industries and applications, whatever the specification or price point, we have scoured the world and tested products, including the latest technology from China, to find the most innovative, effective and user-friendly options currently on the market.

Recognising the growth of LED technology and the wide choice available to customers, our Showroom provides a unique opportunity to test a vast array of displays using varying pixel pitches to determine what is best for a specific application.

Our experts will be on hand to help you enhance your service and maximise return on investment, offering an understanding of the diverse range of products, a first-hand view of what is available, and providing a place for creative inspiration.

Delivering an under-one-roof facility for displayLED clients, The Pixel Depot showrooms are also available for rental companies and designers to demonstrate options to potential clients, and as an educational resource and training facility.

The Pixel Depot is...

- ✓ An exciting one stop resource to witness and test the latest LED technology
- ✓ An independent source showcasing products from a wide range of manufacturers
- ✓ A source of advice before making purchase decisions
- ✓ Home of our own digiLED creative LED range of products
- ✓ An educational resource for end users and re-sellers
- ✓ A place for creative LED inspiration
- ✓ An educational & training resource
- ✓ A meetings facility
- ✓ Use our unrivalled experience and contacts in China to source you the right products
- ✓ 24/hr showroom appointments available for last minute screen requirements

Make the Pixel Depot your first stop...

It's not easy to continually keep up to date with the best and latest products; so let our experts do the work and bring the best to you. Sometimes it's hard to visualise or appreciate LED display technology until you see it in person, to know what is best for your application, whether you are dealing with a reputable manufacture or supplier – particularly overseas, or if a product will perform at the end of the day.

Come to the Pixel Depot at the start of your process. We believe we'll save you a lot of time... and money! **Come and see for yourself!**
